RE: Computer Network Technology Corporation application for Certificate of Public Convenience and Necessity to provide telecommunications services in the State of Arizona

Dear Adam:

I am responding to the requests of the Arizona Public Service Commission for additional information regarding the application of Computer Network Technology Corporation (CNT) for a Certificate of Public Convenience and Necessity to provide telecommunications services in the State of Arizona.

While CNT has applied for resale and facilities based authority, in its initial market entry, and for the foreseeable future, CNT will restrict itself to the provision of private line point to point and point to multi-point high speed data services. These services will be marketed to existing customers of CNT's data storage and management products and services. CNT will not be offering voice grade services at the present time, and will not be using the public switched telephone network to provide its data services. Please regard this letter as a formal request to amend the original application for CPCN filed by CNT with the Commission.

I hope that this answers any questions that the Commission may have with respect to CNT's application, and I am available to discuss any aspect of this matter.

Respectfully,

Robert K Lock

Arizona Corporation Commission
